

SmartStart

Accelerate the implementation and user adoption of your Icertis Contract Intelligence solution.

SmartStart is a packaged offering designed for in-house legal teams to accelerate users' Icertis Contract Intelligence (ICI) adoption. Experienced Elevate legal professionals lead the SmartStart implementation work, including simplifying terms, language, clause libraries, templates, and document management.

SmartStart
for greater user
adoption.

Use SmartStart to experience faster time to value of your ICI investment and greater user adoption.

Experience the power of ICI in your environment

SmartStart assists ICI customers with decision making, data gathering, and process change increasing the value from a new ICI implementation.

Take the guess work out of where to begin

SmartStart includes a contracts optimisation process beyond standard implementation support, helping customers align on requirements, creating standardised clauses, workflows, and ensuring compliance.

Get the most from your new solution

Minimise the time and resources needed from your team to enable the ICI solution. With a proven implementation roadmap, we guide you to a self-service digital environment that transforms your business.

Meet your purchase objectives

SmartStart helps you meet your goals of processing more contracts with fewer legal resources. Improve deal velocity by reducing cycle times between contract request, negotiation, and execution.

Why select SmartStart?

- To achieve a faster time to value from a new ICI implementation
- Align on clauses, smart naming conventions, and strong document management with SmartStart
- To measure before and after metrics, including customer-specific KPIs
- We offer packaged implementation support with a fixed fee cost structure
- SmartStart is designed to meet customers' needs with a base offering and a menu of adoption readiness services
- Ensure faster and more effective user adoption
