

Contracts Services

Gain Support for the Contract Management Lifecycle

End-to-end technology-enabled contract management services accelerate contracting cycle times, lower risk, and decrease cost.

Access remote, off-site, and on-location global teams of lawyers, contracts specialists, and certified technologists specialising in process optimisation and support.

- **Contracts Consulting:** Process and change management and technology consulting
- **Contracts Insights:** AI-enabled review with expert analysis
- **Managed Contracts:** Tech-enabled legal services to manage, draft, review, and negotiate contracts and provide data and reporting
- **Managed CLM Technology:** Access a certified partner to provide support for your CLM needs
- **Contractual and Regulatory:** Monitor, review, and remediate contracts to ensure compliance
- **Manage Contracts Software:** CLM software delivered through Elevate's Enterprise Legal Management (ELM) platform program creation

Reduce Contract Costs by
30%
Within 18 Months

Take this no-cost CLM Maturity Assessment created by Elevate and the World Commerce and Contracting Association to assess your organisation's readiness to find, implement, and adopt a new CLM solution.
